# **Energy performance certificate (EPC)**

Flat 17 The Coronet Apartments 6 Odeon Parade Well Hall Road LONDON SE9 6DB	Energy rating	Valid until: Certificate number:	6 September 2032 0060-2483-7011-2302- 9271	
Property type Top-floor flat				
Total floor area	64 square metres			

# **Rules on letting this property**

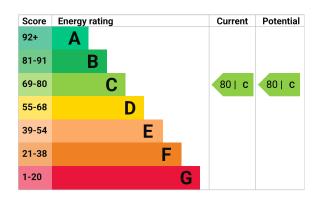

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

# Energy efficiency rating for this property

This property's current energy rating is C. It has the potential to be C.

See how to improve this property's energy performance.

The graph shows this property's current and potential energy efficiency.

Properties are given a rating from A (most efficient) to G (least efficient).

Properties are also given a score. The higher the number the lower your fuel bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

This section shows the energy performance for features of this property. The assessment does not consider the condition of a feature and how well it is working.

Each feature is assessed as one of the following:

- very good (most efficient)
- good
- average
- poor
- very poor (least efficient)

When the description says "assumed", it means that the feature could not be inspected and an assumption has been made based on the property's age and type.

Feature	Description	Rating
Wall	Cavity wall, as built, insulated (assumed)	Very good
Roof	Flat, insulated (assumed)	Good
Window	Fully double glazed	Good
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Good
Lighting	Low energy lighting in all fixed outlets	Very good
Floor	(another dwelling below)	N/A
Secondary heating	None	N/A

#### Primary energy use

The primary energy use for this property per year is 114 kilowatt hours per square metre (kWh/m2).

Environmenta this property	al impact of	produces	C02	
This property's current environmental impact rating is B. It has the potential to be B.		This property's potential production	1.3 tonnes of CO2	
Properties are rated in a scale from A to G based on how much carbon dioxide (CO2) they produce. Properties with an A rating produce less CO2 than G rated properties.		<u>changes</u> , you coul property's CO2 em tonnes per year. T	By making the <u>recommended</u> <u>changes</u> , you could reduce this property's CO2 emissions by 0.0 tonnes per year. This will help to protect the environment. Environmental impact ratings are based on assumptions about average occupancy and energy	
		based on assump average occupanc		
An average household produces	6 tonnes of CO2	use. They may not energy is consume people living at the	ed by the	
This property	1.3 tonnes of			

# Improve this property's energy performance

The assessor did not make any recommendations for this property.

<u>Simple Energy Advice has guidance on improving a property's energy use.</u> (<u>https://www.simpleenergyadvice.org.uk/</u>)

#### Paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme</u> (<u>https://www.gov.uk/guidance/check-if-you-may-be-eligible-for-the-boiler-upgrade-scheme-from-april-2022</u>). This will help you buy a more efficient, low carbon heating system for this property.

Find energy grants and ways to save energy in your home (https://www.gov.uk/improve-energy-efficiency).

### Estimated energy use and potential savings

Estimated yearly energy cost for this property	£362
Potential saving	£0

The estimated cost shows how much the average household would spend in this property for heating, lighting and hot water. It is not based on how energy is used by the people living at the property.

The potential saving shows how much money you could save if you <u>complete each</u> <u>recommended step in order</u>. For advice on how to reduce your energy bills visit <u>Simple Energy</u> <u>Advice</u> (https://www.gov.uk/improve-energy-

<u>(https://www.gov.uk/improve-energy-</u> <u>efficiency)</u>.

#### Heating use in this property

Heating a property usually makes up the majority of energy costs.

Estimated energy used to heat this property

Type of heating	Estimated energy used
Space heating	2337 kWh per year
Water heating	1919 kWh per year

# Potential energy savings by installing insulation

The assessor did not find any opportunities to save energy by installing insulation in this property.

# Contacting the assessor and accreditation scheme

This EPC was created by a qualified energy assessor.

If you are unhappy about your property's energy assessment or certificate, you can complain to the assessor directly.

If you are still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation schemes are appointed by the government to ensure that assessors are qualified to carry out EPC assessments.
